

# Lynx Axis IP Speaker Integration

SKU #780-LYNX-AXIS-I

Photo courtesy of Axis Communications AB. All rights reserved.

The Lynx Axis IP Speaker integration to your LynxGuide server, communicates to AXIS PoE IP speakers, using your facilities network. The messages may be text-to-speech or pre-recorded messages. Messages can be sent to one or all speakers. The messages are logged within the Lynx message log and confirmation that the message was played.

## Features and Benefits

- Integration in Axis Speakers
- Enables text to speech to one or all speakers by creating zones
- Supervises the Axis Speakers

**Communication Protocol:** Lynx makes HTTP request to integrate with Axis VAPIX.
