

# Lynx Shooter Detection Systems Integration

SKU #780-LYNX-SDS-INT

The Lynx-SDS-INT integration allows the Lynx system to receive alarms from the Shooter Detection Systems server, which can go to any Lynx output device.

## Features and Benefits

- Shooter Detection Systems automate alerts to any Lynx output device
- Gun shot detection can go to only Security/Police or notify all recipients
- Different alert messages can be sent to different buildings based on protocols

**Communication Protocol:** The Lynx SDS integration uses the LynxAPI SKU #780-LYNX-API-1, using REST JSON HTTP.
