

Lynx Panic-A

SKU #950-WLT-PANIC-A

The handheld single panic button includes a belt clip. It can be worn with a clip or remove the clip and the transmitter can be placed on a breakaway lanyard. It is activated by pressing and holding the button for 2 seconds, transmitting the alarm. The alarm sends a wireless alarm to the LynxNet WLS and then sends it to the LynxGuide server.

Features and Benefits

- The press and hold (for 2 seconds) panic button that can clip on and be worn, or remove the clip and the transmitter can be placed on a breakaway lanyard
- Supervised and can be tested
- Used with the Lynx fixed or the Lynx locating wireless system
